To whom it may concern:

I am a resident of Albuquerque, New Mexico and have been for 30 years of my life. I have been through some hard times and was seeking support during this time. It was through the positive and encouraging message broadcasted through K-LOVE that I was able to cope with some personal issues. In fact it is through this continual message that I can make it through some days with a positive attitude.

It has come to my attention that I am not alone. I see the K-LOVE sticker on cars throughout this city even though the station is an alien. If you pull the plug on this "life support" for many of us in New Mexico via new broadcast services, the effect will be severe. The world broadcasts many messages that leave most feeling depressed or angy. It is only through K-LOVE that the world is taught that there truly is someone who cares for us as individuals and for the community. Take this wonderful privilage away from our community and you will effect a people in need of hope and grace. This community thrives on good people who need encouragement to make it through the hard trials placed before each and everyone of us. It is my sincere hope and prayer that my voice is heard as one who is in desperate need of this type of progamming. I believe I speak for many unheard voices in this community.

Thank you for your time and consideration. I pray that you find the hope and grace in which I speak in your own lives.

Kind regards, Henry J. Hidalgo
